

Secure File Gateway for Web Applications

Secure all file uploads and receive documents completely risk-free

Document Uploads Can Come from Anywhere

Whether it's contracts, claims or applications, accepting uploaded files from the web is necessary for your business to run. But there's no telling where these files came from, or what threats could be hiding inside them. Today's detection-based tools simply aren't designed to catch every threat, which means one dangerous upload could mean a major disaster for your business.

Votiro for Web Applications: Secure 100% of Uploads with Positive Selection

Secure File Gateway singles out only the elements of files known to be fully secure, guaranteeing each and every upload is 100% safe. Now you can accept every upload without ever wondering if you are exposing your business to risk.

Know every upload is completely safe

Ensures every uploaded file is harmless before it enters your organization

Be more productive with zero interruptions

Works without any latency, protecting files invisibly in the background

Protect your bottom line

Prevents the potential loss of revenue due to losing business-critical files

How It Works

Fits Right in. Won't Ever Know It's There.

Secure File Gateway singles out only the elements of emails known to be fully secure, guaranteeing they are 100% safe. Now employees can open every email and file attachment with complete peace of mind, and without any delays or disruptions to business.

**Easy implementation:
less than 10 minutes**

**Seamless integration with
existing solutions**

Zero training required

**Supports both
Cloud & On-Prem**

We Know Files.

With our deep understanding in file composition and weaponization, we developed an entirely new approach to file security. One that doesn't just block any threat it could find – it eliminates threats from entering in the first place. With Votiro, files simply don't pose a threat to your business anymore.

About Votiro

Founded in 2010 by leading file security experts, Votiro is trusted by large enterprises, including top Fortune 500 companies to completely eliminate file-based threats while ensuring zero interruption to business. Headquartered in the United States, with offices in Australia, Israel and Singapore, Votiro is trusted by 400 companies and 2 million users worldwide to safely access files with complete peace of mind.
